Market Technical Outlook

The Nifty opened on a subdued note traded with choppiness but selling in the later half of the session dragged nifty to close in red. On the daily chart, prices tested the falling 10-daySMA (24,616) by making a high of 24702 but has convincingly close below it. This indicates weakness. In the upcoming session, a move below the 24,330 level could pave the way for a decline toward 24,270 – 24,150 levels. On the upside, the 24,460 – 24,530 zone is likely to act as a resistance.

Given that prices have closed below 24,530 (100 – days SMA) for two consecutive trading session. Hence, a cautious approach is advised at the current levels.
