Market Technical Outlook

The Nifty opened higher and traded with choppiness but witnessed upside momentum in the latter half of the session to close in the green. On the daily chart, prices approached the all-time high of 26,277 by making a high of 26,246 but closed well below it. In the upcoming session, a sustained move above 26,250 could lead to a test of the all-time high of 26,277, and further extend gains toward the 26,320–26,400 levels. On the downside, support is placed at the 26,100–26,000 levels.

Broadly, the overall trend remains positive, with buying interest emerging at lower levels, which may drive the Nifty toward its all-time high or even higher. Hence, traders are advised to adopt a cautiously optimistic approach and focus on selective, stock-specific opportunities.
