Market Technical Outlook

The Nifty opened lower and traded with chopiness but eventually closed in the red. On the daily chart, a lower-low formation indicates that the recent up move is undergoing a minor correction. At present, Nifty has strong support in the 25,145–25,000 zone, from where a reversal can be anticipated. In the upcoming session, if Nifty sustains above 25,260, it may move higher toward 25,300–25,430 levels, while immediate support is placed at 25,140–25,000 levels.

Despite the short-term caution, we maintain our bullish outlook as prices have confirmed a double-bottom pattern, signaling a strong probability of Nifty testing 25,654 and potentially retesting its all-time high of 26,277 in the coming months.
