### Market Technical Outlook

The Nifty opened on a positive note but failed to sustain the early gains as selling pressure emerged, dragging the index lower to close in the red. On the daily chart, prices have close well below the 10&20,50-days SMA (25092 & 24958, 24855). In the upcoming session, if Nifty sustains below 24600 then it may test 24550 – 24480 levels. On the upside, 24760 – 24845 levels may act as resistance for the day.

**Since, prices have closed below falling 50-days SMA one needs to adopt be cautious at current level. cautiously positive approach at current level should be adopted.**
